

Biologinen ketjuöljy

Olemme testanneet teidän kehittämäanne biologista ketjuöljyä rehupaalaimessa. Olemme tulleet siihen tulokseen, että ketjuöljy voitelee todella hyvin sekä pitää koneen puhtaana, koska sitä ei tarvitse laittaa kuin puolet vähemmän normaaliin öljyyn verrattuna. Öljyssä on erittäin hyvä voitelukyky ja tarttuvuus. Olemme olleet ketjuöljyyn erittäin tyytyväisiä.

14.10.2015

Ystävällisin terveisin:

Jorma Laukkanen

Pekka Saarelainen

English translation:

"We have tested your biological chain lubricant on a baler machine. We have come to a conclusion, that the chain lubricant lubricates really well and keeps the machine clean, because you only have to add half as much lubricant as opposed to a normal lubricant. The lubricant has excellent lubricating ability and adhesion. We have been extremely satisfied with the product."

Cobiolube® Agri Chain

Date : 30.10.2016
Name : Jouko Vatanen
Address : Kypäräntie 245, 74140 Iisalmi, Finland
Phone : +358 50 546 9825
Mark and model of the baler : Claas 355 and John Deere 440
Name of the earlier lubricant : Mineral oil

In your opinion how well did the product lubricate the chains and rack wheels compared with the earlier lubricant?

Better As well Worse

How well did the product stay on the chain?

Better As well Worse

Kirjoita napsauttamalla

How well did the chains and rack wheels keep clean?

Better As well Worse

Kirjoita napsauttamalla

What estimate do you give for the product?

Good chain lubricant, points 9/10. The chains keep clean. I will use Cobiolube in future.

Cobiolube® Agri Chain

Date : 24.09.2016

Kirjoita napsauttamalla

How well did the chains and rack wheels keep clean?

Better As well Worse

Kirjoita napsauttamalla

What estimate do you give for the product?

We have not used this baler earlier so it is difficult to compare in that sense. The product seemed to lubricate the chains well. When filling the tank the product seemed to be thick. The tank also filled slowly as the product went through the pre-filter. I cannot estimate the consumption; we only had material for approx. 300 bales.
